

PROGRADE DIGITAL INTRODUCES RECOVERY PRO SOFTWARE TO RESTORE COMPLEX PHOTO AND MOTION FILES

*Recovers Lost, Deleted or Corrupted Files Produced Using
DSLR, Digital Cinema, Mirrorless, Video Cameras*

SAN JOSE, Calif., February 11, 2019, 8:00 am Pacific—ProGrade Digital, founded on a mission to provide the highest quality professional grade memory cards and workflow solutions, today announced Recovery Pro, a professional-grade software to assist with recovery of photo and video files that have become lost, accidentally deleted and/or corrupted. Recovery Pro recognizes RAW, TIF, JPEG, MJP, MOV, MP4 and many other files types produced by DSLR, mirrorless, cinema and video cameras from Canon™, DJI™, GoPro™, Nikon™, Sony®, Panasonic™, Fuji™ and more. ProGrade Digital Recovery Pro software is compatible with Windows® 10 and higher and Mac OS X® 10.8 and higher. A free “try before you buy” evaluation copy is available; full software download is \$49.99 USD for a 12-month subscription. Available exclusively at <https://progradedigital.com/products/recovery-pro-data-recovery-software/>

“We are happy to release our new Recovery Pro software after having spent nearly one year developing it to refine the recovery capabilities for all types of still and video files,” said Wes Brewer, founder and CEO of ProGrade Digital. “Today, there are a variety of free and paid software applications for professionals to recover lost images and video files, but each has limits due to the complexity of various file structures and corruption scenarios. We believe that our new Recovery Pro software is the most comprehensive tool available today, and yields the highest possible success rate for recovering damaged files from all types of cameras--be it action cameras, drones, pro camcorders, DSLRs or some of the newest mirrorless models.”

Recovery Pro Software Key Features

Imaging professionals who produce still, video and cinema-grade 4-6K, UHD and/or 360-degree file types now have a comprehensive file recovery tool:

- Recovers motion file formats, including: MOV, AVI, ASF, MOD, WMV, MP4
- Recovers photo file formats, including: TIF, CRW, CR2, DNG, NEF, ORF, SRF, PEF, JPEG, BMP, GIF, PNG, most types of RAW
- Recovers more than 90 different audio and video file formats
- Recovers companion audio file formats embedded in video
- Recovers files acquired using Canon™, DJI™, GoPro™, Nikon™, Sony®, Panasonic™, Fuji™ and other brand cameras

- Compatible with files produced using CFast™, SDXC™, microSDHC/XC™, CompactFlash™ cards
- Compatible with Win 10; Mac OS X 10.8 and higher
- Free evaluation copy; download and activate a 12-month software subscription for \$49.99 USD
- Requires minimum 4GB RAM

About ProGrade Digital, Inc.

ProGrade Digital focuses exclusively on the design and marketing of digital memory cards, card readers and workflow software required by imaging professionals. Flagship products include ProGrade Digital CFexpress™ and ProGrade Digital SDXC UHS-II memory cards offered in a range of capacities and optimized to render maximum performance when paired with high-end DSLR, mirrorless, camcorder, drone and digital cinema cameras from Blackmagic™, Canon™, DJI, GoPro™, Nikon™, Panasonic™, Sony® and more. ProGrade Digital memory cards and workflow solutions are available for purchase by global customers on the company website and B&H Photo and Video website. Customers in North America, Japan and 27 European countries may also shop on Amazon.com. ProGrade Digital memory cards expand the creative visions of cinema and photography professionals around the world.
